बोलो, लिखो मत।

Kirana ka udhaar, aapki awaaz se. Hindi aur English. Har entry par aapki tasdeeq. Demo data fictional hai.

Dukaan Dost

Counter par bheed, haath mein saaman, udhaar yaad rakhna.

Yeh ek chitr hai (illustration), kisi asli dukaandaar ya graahak ki photo nahi.

Dukaan Dost

Bolo, parchi banta hai, stamp lagta hai.

Parchi. Jo suna, wahi dikhta hai. Aap padh kar tap karte hain.

Stamp. Tap ke baad hi लिख लिया lagta hai.

Aage ka hisaab. Dashboard, measured stock aur customer statements. Har dukaan ka data alag.

Confirm ke bina kuch save nahi.
Har entry par aapka tap.

Rakam digits aur shabdon mein.
₹500, पाँच सौ रुपये.

Disha shabdon mein.
Paise mile ya udhaar diya, sirf rang nahi.

Hata do, delete nahi.
Entry void hoti hai, record rehta hai.

Audit.
Har badlaav ka nishaan, balance entries se banta hai.

Reminder par bhi aapka tap.
Draft dekho, recipient check karo, phir bhejo. Koi automatic send nahi.

Hum yeh nahi kehte ki AI galti nahi karta. Hum kehte hain: tap ke bina galti save nahi hoti.

Business model aur channel.

Yeh sab hypotheses hain, saabit nahi.

Hypothesis 1: model.
Dukaan ke liye muft shuruaat; reminders aur backup jaise extras ke liye chhota monthly plan. Kya dukaandaar dega? Pata nahi.

Hypothesis 2: channel.
Dukaandaar se dukaandaar, aur local wholesalers ya dukaan associations. Abhi kisi se baat nahi hui.

Pehle sawaal ka jawab aana baaki hai: kya yeh itna kaam ka hai ki koi iske liye paise de?

Dukaan Dost

Aage kya karenge.

Das dukaanon ka test.
Asli dukaandaar, unki sahmati se, asli awaaz. Tab live accuracy naapenge.

Pricing test.
Dekhenge ki log kitna dene ko tayyar hain, ya bilkul nahi.

Delivery ka saboot.
Authorized real-phone receipt aur restore rehearsal. Official WhatsApp migration ke liye credentials abhi chahiye.
